

## Programme description

The Faculty of Architecture is committed to studying and teaching the disciplines of Architectural Science, Design Technologies, and Urban Design Planning. The Faculty offers undergraduate and graduate coursework, as well as research programs in the built environment. The curricula are organized around two basic disciplines of design and planning. Wide range of topics are covered in lectures, field works and studios, where the aim is to bring together knowledge, methodology theory and high levels of professional skills within the framework of projects. Focal points of education are architectural design studios aiming to freely develop the students' investigative sides, creative personalities and way of thinking. Students have the opportunity to follow programs in different areas like history of architecture, building technology and structure.

The 1.5 year Master of Architecture is a choice for students who want to advance their architecture skills. While it is open to Bachelors Degree in Architecture graduates, the programme has been specifically developed to learn new techniques, sharpen design skills and keep abreast of current theory. The Faculty is supplemented by the critics and theorists from various countries, introducing students to issues and trends in contemporary design and urban planning. There are various individual research carried out by the members of the staff at the department, which include: architectural design, urban and regional planning. For many years, Faculty of Architecture has educated students who have played important roles in shaping Polish built environment. Today's graduates continue this tradition by answering the challenges imposed by contemporary European society.

## Course summary:

### Semester 1

- Theory and Principles of Designing Health Service Units
- Innovatics
- Industrial Design
- Architectural Design of Workplaces
- Timber Architecture
- Aesthetics
- Elements of Economic Law
- History of Art
- Management of Sustainable Development of Towns
- Theory of Monument Restoration
- Monument Restoration Design
- Lighting and Electrical Installations Design
- Perception Psychology
- Inventory Training (2 weeks)
- Internship at office
- Physical Training

### Semester 2

- Regional Planning
- Study of the Spatial Management of a Commune
- Theory and Principles of Designing Service Facilities 2
- Design of Service Facilities 2
- Research-Project Design Studio Water in Architecture
- Research-Project Design Studio Architecture and Fashion
- City Center Revitalization
- Icons of Architecture
- Spatial Planning Law
- Industrial design 2
- Theory of Spatial Planning
- Local Spatial Management Plan
- Marketing
- Cross-Cultural Communication

### Semester 3

- Research and Project Design Studio B
- Thematic Lecture
- Diploma Seminar
- Preparation of MA Thesis and Preparation for Diploma Exam
